

REMARKS

Claims 93-120 are now pending in the present application. Reconsideration and allowance of the application and presently pending claims are respectfully requested in view of the foregoing remarks.

A. Claim Rejections and Objections

Claims 47-92 have been cancelled without prejudice, waiver, or disclaimer. Therefore, rejections of and objections to claims 47-92 are rendered moot. Applicants are not addressing the validity of all assertions made by the Examiner regarding claims 47-92 since the validity of such assertions may not be relevant to the allowance of the newly presented claims 93-120. Therefore, Applicants should not be presumed to agree with any statements made by the Examiner regarding claims 47-92 unless otherwise specifically indicated by Applicants.

B. New Claims

Claims 93-120, which have been newly added, are adequately supported by the specification, including at least FIGS. 14-24 and their related descriptions. These newly added claims are allowable because they claim subject matter that is not disclosed, taught or suggested by the cited references. Consideration and allowance of these newly added claims is respectfully requested.

Claims 93-104

Claims 93-104 are allowable for at least the reason that none of the cited references teach, suggest, or disclose “associating at least one graphical element with a color specified by the first set of color specifications responsive to a user input corresponding to a selectable option provided by the STT, the graphical element being contained in a first structured visual presentation provided by the first software module and in a second structured visual presentation provided by the second software module.”

Claims 105-111

Claims 105-111 are allowable for at least the reason that none of the cited references teach, suggest, or disclose “associating the first and second software modules with the font characteristic specifications responsive to user input corresponding to at least one selectable option provided by the STT, the selectable option corresponding to the font characteristic specifications.”

Claims 112-120

Claims 112-120 are allowable for at least the reason that none of the cited references teach, suggest, or disclose “associating the first and second software modules with a selected color scheme specification among said plurality of color scheme specifications responsive to user input corresponding to at least one selectable option provided by the STT, the selectable option corresponding to the selected color scheme specification.”

CONCLUSION

Applicants respectfully maintain that the currently pending claims 93-120 are in condition for allowance. Should the Examiner have any comments or suggestions that would place the subject patent application in better condition for allowance, he is respectfully requested to telephone the undersigned attorney at (770) 933-9500.

Respectfully submitted,
